iPad Workshop

iPad Workshop

In this new iPad Workshop, each week is formatted to focus on specific features, how they function and how you can use them to get the most from your iPad.

iPad Workshop Outline

- Session One: physical features, App store and basic terms and vocabulary. Please come to class with your Apple ID and password.
- Session Two: pre-installed apps including Mail for email, Safari for surfing the Web, and camera for taking videos and pictures.
- Session Three: Calendars, Contacts, and how to use Facetime for making videoconferencing calls over the internet for free. We'll discuss Siri as well, your voice activated digital assistant.
- Session Four: Apple's iCloud, which offers a variety of important, but greatly misunderstood services. We also go over using the iBooks app to find the iPad User Guide and discuss a few final tips and tricks.

Meet iPad Instructor Gregg Montgomery

Gregg Montgomery works as a technology consultant in the Columbus, OH area. A former Apple store retail employee, Gregg has been working independently running his own technology business for over three years. He's consulted with schools and businesses, but spends most of his time working with adults teaching classes or doing one-on-one training and troubleshooting related to Apple products. Gregg has a Bachelor's Degree in Fine Art from Cleveland State University and a Master's Degree in Art Education from The Ohio University.
